

## **Media Listing – GRADUATE MANUFACTURING ENGINEERING**

An ever-evolving heritage. A truly exciting future. Home to two of the world's most iconic brands. At Jaguar Land Rover we are continually redefining the benchmark for excellence and setting the standards that others want to follow. And with increasing demand and even greater ambitions, finding the future leaders of our business has never been more important than now. That's where you join the journey.

Innovative and pioneering. Since the beginning we've been committed to delivering the best manufacturing techniques in the world. Today, revolutionary technologies and innovative lean processes combine to meet our ambitious programme of new models and vehicle lines. Join our Manufacturing Engineering programme and you'll spend two years immersing yourself in the processes and philosophies we use to create our world-renowned vehicles, and learn how we embed quality into everything from the construction of vehicle bodies to the application of crucial finishing touches.

Exploring and contributing to every area of manufacturing from Production Engineering to Powertrain Engineering and Production Supervision to New Model Programmes, you'll help us find new ways to improve – keeping our facilities and our thinking at the forefront of the industry, and in line with our customers' high expectations.

Your journey will begin with a thorough introduction to both brands, followed by carefully planned development throughout the programme. You'll work with industry-leading experts to develop specialist, commercial and managerial skills and you'll be supported to gain professional qualifications and IMechE accreditation. At every stage, we will give you the encouragement and freedom to achieve your full potential, drive your own success and make your mark on our entire operation.

As you'd expect from one of the world's most revered organisations, an outstanding range of rewards and benefits await those who have the vision and drive to continue our global success – including a competitive starting salary, joining bonus, pension scheme and discounted car purchase scheme. All this and more makes Jaguar Land Rover an excellent place to start your journey and build a world-class career.
